1 The presentation should include program-based examples (code component) illustrating the problem and
2 where appropriate to address solutions. Depending on topic, each team may de/emphasize different
3 portions.

4 the presentation slides, which should summarize the project should be able to be presented in 15
5 minutes.

6 GUIDING GOAL: Leave your classmates with something they can incorporate into their own praxis. This
7 could be a turn-key day/unit plan, can include code snippets or full working programs, or something more
8 abstract. You know your audience...
